

Reinforced heat shrinkable closure systems for telecommunications cables, mainly used for jointing of high paired cables. The cable splice will be protected by a metal canister.

Characteristics of the GSMK

- High tensile strength during the shrinking process due to the reinforced sleeve material
- High mechanical strength due to the metal canister
- Reliable sealing of the splice area against humidity by means of hot melt adhesive
- Maximum 3 cable outlets/inlets on each side
- Simple and reliable installation
- No special tools required
- Canister is suitable for filling with grease or resin

Ordering information, Table of application

Kit content

Reinforced heat shrinkable sleeve
Metal canister
Splice protection
Flexible channel
Retention clip
Shield continuity assembly
Drying agent
Aluminium tape
Cleaning cloth
Abrasive strip
Installation instruction

Branch-off kit BRK

Branch-off clip
Shield continuity assembly for branch-offs
Shield continuity clip
Aluminium tape
