

The cable sheath and pipe slitter KMRS is a special version of the cable sheath slitter KMS-K. Its feed mechanic is especially adapted for slitting of thick cables and HDPE-plastic pipes. By the straight dovetailing of the feed lever a better intervention in the surface of cable sheath and pipes with greater diameters is ensured.

### Characteristics of the KMRS

- Impact resistant plastic material
- Safe and simple handling
- No risk of injuries
- Adjustable slitting depth
- Double bladed knife made from hardened special steel
